SEMICONDUCTOR

The World Leader in CMOS Technology for Highly Integrated Systems

- A leading global Discrete and Optocoupler supplier
- Compound Semiconductor Technology – SiC and GaN
- Power Devices/MOSFETs: DTMOS, U-MOS (LV-MOS), Intelligent Power ICs, High Power Devices - High Reliability and High Efficiency
- Logic and Small Signal: Small Packages (WCSP) – Low Capacitance & RDSon
- Leader in advanced CCD Technology: Linear Sensors
- Highly integrated family of Automotive Ethernet Devices
- Analog ICs and Microcontroller Units for Motor Control Applications, aimed at reducing world-wide energy consumption.
- Interface Bridge ICs for Mobile Peripheral Devices

STORAGE

Hard Disk Drives - HDD

Cloud-Scale and Enterprise HDDs provide unsurpassed quality and reliability for demanding 24/7 server and storage deployments. Leading CSPs and OEMs consistently rely on Toshiba for cost-efficient enterprise scale capacity with field-proven quality and power-saving TCO benefits.

- NL (Enterprise / Data Center)
- NAS
- Surveillance

SSD: Arrow, ASI, Avnet, Ma Labs, TD Synnex
Memory: Arrow, Avnet, Digi-Key, Mouser

KIOXIA America, Inc. is the US-based subsidiary of KIOXIA Corporation, a leading worldwide supplier of flash memory and solid-state drives (SSDs). From the invention of flash memory to today's breakthrough BiCS FLASH™ 3D technology, KIOXIA continues to pioneer cutting-edge memory solutions and services that enrich people's lives and expand society's horizons. The company's innovative 3D flash memory technology, BiCS FLASH™, is shaping the future of storage in high-density applications, including advanced smartphones, PCs, SSDs, automotive and data centers.

SSD

- High performance Enterprise Class drives in both NVME & SAS
- Optimized Data Center class NVME drives

Security Features:

SIE, SED and FIPS

Memory

- eMMC
- UFS
- SLC NAND
- Advanced Flash

Arrow, Memphis

Standard DRAM

- Offers JEDEC compliant, high quality DRAM devices, for a wide range of consumer and enterprise products.
- Serves as a one-stop shop covering a wide spectrum of DRAM technologies from DDR2, DDR3, DDR4 and DDR5, with densities ranging from 16Gb to 32Gb.

Low Power DRAM

- Low power consumption, along with high speed and bandwidth deliver superior performance with products such as LPDDR2, LPDDR3, LPDDR4, LPDDR4x
- Diverse selection of product package, densities & temperature specifications.
- Ideal solution for portability, which includes handheld devices, infotainment systems in car, IoT applications.

Automotive & Industrial

- Support automotive & industrial grade standard DRAM and low power DRAM.
- Certified with IATF16949 / AEC-Q100 to meet critical temperature & reliability requirements.

MCP & eMCP

- Optimal solution to minimize form factor with the integration of Low power DRAM & SLC/MLC NAND.
- The comprehensive selection of packages and densities, most suitable for portable devices & IoT applications.
- Support wide temp and industrial temp range to fit different usage conditions and specifications.

Nanya is revered for providing long and stable product life cycles.

AM Photonics

www.amphotonics.com

AM Photonics specializes in Advanced Optical Interconnects for next-generation data networks, providing local manufacturing and testing services to support communication networks and data centers. With a focus on U.S.-based production, we ensure quality, reliability, and faster deployment for critical networking infrastructure.

Products:

AOC – Active Optical Cable
AEC – Active Electric Cable
OSA - Optical Sub-Assembly
Transceivers

Transceivers:

- 800G QSFP-DD/OSFP	- 400G QSFP-DD
- 100G QSFP56	- 25G SFP28
- 100G QSFP28	- 10G SFP+

<p>MediaTek Incorporated is the world's 5th largest global fabless semiconductor company. They are market leaders in developing innovative systems-on-chip (SoC) for mobile devices, home entertainment, connectivity and IoT products. Ultimately, MediaTek powers more than 2 billion devices a year – that's in 20 percent of homes and nearly 1 of every 3 mobile phones globally.</p>	<p>For over 25 years, their dedication to innovation has positioned MediaTek as a market driving force in several key technology areas, including highly power-efficient mobile technologies, automotive solutions and a broad range of advanced multimedia products.</p>	<p>Products:</p> <ul style="list-style-type: none"> • MediaTek Genio for IoT • MediaTek Dimensity for 5G • MediaTek Kompanio for Chromebook • MediaTek Pentonic for TV Platforms • MediaTek Filogic for Wi-Fi 6, 6e and 7

Your Smart Connected Devices Partner

MobiWire delivers end-to-end ODM solutions, designing and manufacturing customized mobile hardware and connected IoT devices for enterprise partners and OEM partners. Supported by robust engineering and reliable supply chain integration, we deliver scalable device technologies that bring custom products from concept to market.

Sample Designs:

- 10.95" High-End Ultra-Thin 4G Tablet
- Airborne Starlink Communications Gateway
- 6.8" Ultra-Endurance 4G Smartphone
- 5.99" SoftPOS With 4G
- EMV Card Reader With NFC
- 6.56" Smart POS With 4G and Integrated Printer
- 6.67" 4G Smartphone With 50MP Camera
- 4" SoftPOS With 4G
- 5G CPE With Wi-Fi 6
- 4G Mobile Hotspot
- 6.01" Rugged PDA With 5G
- 5.45" SoftPOS With 4G and Integrated Printer
- 6.56" Mid-Range 4G Smartphone
- 4" Rugged PDA With 4G and Barcode Scanner
- 10.01" SoftPOS Tablet With 4G

SPARK Microsystems is a fabless semiconductor company leading the way forward in UWB (Ultra-Wide Bandwidth) facilitating ultra-low power, ultra-low latency wireless communications.

The SR1000 UWB Wireless Transceiver Family enables no-compromise wireless:

- Data rate of up to 10 Mbps @ 1.5 nJ/bit
- Power consumption of 2 mW while transmitting and receiving at 1 Mbps, and scaling to 6 μ W at 1 kbps
- Ultra-short wireless latency (50 μ s for 1 kb)
- Time-of-flight positioning at 30 cm accuracy
- Applications: Gaming, Audio, AR/VR, Positioning, IoT, SMART Home
- Software Development and Evaluation Kits are available

SSSTC, a subsidiary of KIOXIA Corporation (formerly LiteOn), offers a comprehensive lineup of SSDs for the Enterprise, Industrial, Business Client and Consumer markets. The SSSTC solutions comprise of a variety of interfaces and form factors to deliver the right product for the right application.

Why choose SSSTC?

- 100% In-House Taiwan-based Manufacturing and Development
- 100% Ownership of Source Code and Firmware
- 100% of SSDs Aging Tested

Products:

- Enterprise/Data Center SSDs
- Business Client SSDs
- Industrial SSDs
- Consumer Grade SSDs
